

Develop the Skills to Lead Greatly

San Diego, CA	
Planning & Scheduling	Feb 19 - 21
MRM Diploma Module III	Mar 18 - 22
Reliability Strategy Workshop	Apr 16 - 18
Materials Management for Maintenance	Jun 4 - 6
MRM Diploma Module I	Jun 17 - 21
Supervising Maintenance	Aug 13 - 15
Achieving Total Process Reliability through TPM	Oct 1 - 3
MRM Diploma Module II	Nov 4 - 8
Maximizing Asset Reliability through Preventive Maintenance	Nov 19 - 21

Ann Arbor, MI	
Materials Management for Maintenance	Mar 5 - 7
Supervising Maintenance	Apr 30 - May 2
Planning & Scheduling	Jul 9 - 11
Maximizing Asset Reliability through Preventive Maintenance	Aug 20 - 22
Reliability Strategy Workshop	Oct 8 - 10
Achieving Total Process Reliability through TPM	Nov 12 - 14

Houston, TX	
Supervising Maintenance	Feb 5 - 7
Shutdown, Turnaround, & Outage Optimization	Apr 2 - 4
Planning & Scheduling	May 7 - 9
Achieving Total Process Reliability through TPM	May 21 - 23
Maximizing Asset Reliability through Preventive Maintenance	Jun 11 - 13
Shutdown, Turnaround, & Outage Optimization	Jun 25 - 27
Reliability Strategy Workshop	Jul 23 - 25
Planning & Scheduling	Aug 6 - 8
Materials Management for Maintenance	Aug 27 - 29
Supervising Maintenance	Sep 17 - 19
Shutdown, Turnaround, & Outage Optimization	Oct 15 - 17
Planning & Scheduling	Oct 29 - 31
Materials Management for Maintenance	Dec 3 - 5

Raleigh, NC	
MRM Diploma Module III	Jan 14 - 18
Materials Management for Maintenance	Jan 22 - 24
Planning & Scheduling	Jan 29 - 31
Maximizing Asset Reliability through Preventive Maintenance	Feb 12 - 14
Reliability Strategy Workshop	Feb 26 - 28
Planning & Scheduling	Mar 12 - 14
TPM/TPR Coordinator's Workshop	Mar 25 - 29
MRM Diploma Module I	Apr 8 - 12
Achieving Total Process Reliability through TPM	Apr 23 - 25
Supervising Maintenance	May 14 - 16
TPM/TPR Coordinator's Workshop	Jun 3 - 7
Planning & Scheduling	Jun 25 - 27
Supervising Maintenance	Jul 16 - 18
Materials Management for Maintenance	Jul 30 - Aug 1
Achieving Total Process Reliability through TPM	Aug 27 - 29
MRM Diploma Module II	Sep 9 - 13
TPM/TPR Coordinator's Workshop	Sep 23 - 27
Reliability Strategy Workshop	Oct 22 - 24
Planning & Scheduling	Nov 12 - 14
Planning & Scheduling	Dec 10 - 12

RELIABILITY STRATEGY WORKSHOP

\$1495

NEW

Calling all maintenance, operations, and engineering leaders. This interactive workshop is built to supercharge your reliability strategic plan to accelerate and achieve immediate and sustainable performance improvement. You will create a practical and custom reliability master strategy and 30-day action plan. Move from ideas to action in just 3 days.

Team Discount

You and your team are invited to register for our 2019 Public Seminars and take advantage of our Team Discount. This discount guarantees you and your team's seat and includes a \$150 discount* per registration.

SUPERVISING MAINTENANCE

\$1495

This seminar is designed to provide new and tenured maintenance supervisors with the knowledge and confidence to improve their performance, their team's efficiency and effectiveness and support plant capacity. You will leave this energizing seminar with a personal development plan to fulfill your leadership potential.

MAINTENANCE PLANNING & SCHEDULING

\$1495

In our increasingly competitive marketplace, there is less tolerance for unplanned downtime. Learn how to make productive use of all of your resources - labor, material, capital - by optimizing your maintenance planning and scheduling system today!

Save \$150

*not applicable to MRM Diploma Series

SHUTDOWN & TURNAROUND OPTIMIZATION

\$1495

It is common knowledge among professionals in the energy industry that outages typically have overages on scope, timing and budgets. The key to a successful STO is in knowing how to implement a system of processes, training, goals and objectives which will drive optimum performance before, during, and after the outage. Marshall Institute provides the training required to ensure safety and performance are enhanced and production losses are minimized.

ACHIEVING TOTAL PROCESS RELIABILITY through TPM

\$1495

This progressive program provides a proven strategy to implement sustainable reliability improvements at your facility. Learn how you can improve behaviors and optimize practices to reduce maintenance cost and waste, increase equipment & process reliability, and improve overall productivity.

If you are not completely satisfied with the Marshall Institute public seminar you attend, we will refund your payment, plus offer you another seminar up to the value of the original program free of charge!

TPM/TPR COORDINATOR'S WORKSHOP

\$1995

Get hands-on with reliability improvement. Gain the skills necessary to become an effective TPM/TPR coordinator by practicing on equipment and working in teams to simulate real-world situations. Ensure your TPM implementation is successful.

MAXIMIZING ASSET RELIABILITY through PREVENTIVE MAINTENANCE

\$1495

To increase equipment reliability, this program imparts knowledge & skills necessary to develop a plan to optimize and implement an RCM based preventive/predictive maintenance program that is both practical and effective.

MATERIALS MANAGEMENT FOR MAINTENANCE

\$1495

Learn best practices, hear real world examples, and receive the tools to set up and sustain a world class storeroom operation. This seminar is truly the benchmark training for inventory optimization.
